

# DMT 3 in 1 - \*Drill, Thread, Chamfer

**High Performance tools with internal coolant supply for the production of internal threads.  
\*Circular movement produces the thread hole, the thread and a chamfer  
in one work process.**

**Carbide grade:** MT7 Sub-micron grade with Titanium Aluminum Nitride multi-layer coating (ISO K10-K20).  
MT11 Ultra - fine Sub-micron grade with advanced PVD triple Blue coating (for DMTH)

## Advantages of DMT

- Cancels the need for drilling the hole.
- Short cycle time and high performance reduces machining costs.
- Suitable for blind and through holes.
- Full Profile thread.
- No time lost for tool change, since drilling, chamfering and thread milling are done with one tool.
- Same tool for right-hand or left-hand threads.
- Cuts a wide range of materials.

## DMTH

The new DMTH tools expand the range of the existing DMT line providing the ability to cut steels, hardened materials, stainless steels and super alloys.
