

MINI-/SOLID CARBIDE THREAD MILL PROMO

FOR FAST MACHINING AND HIGH CUTTING STABILITY

BUY ONLY **2** PIECES OF
MINI-/SOLID CARBIDE THREAD MILLS
TYPE FMTZ / FT / FMT / FMTI / FSH
AND GET
**25 % ADDITIONAL
DISCOUNT**

Choose between different Solid Carbide Thread Mills: FMTZ, FT, FMT, FMTI oder FSH

When ordering 2 pieces (free combinable) you get 25 % additional discount.

Promotion is **only** valid for the Solid Carbide Thread Mills listed above.

Supervised by:

FMTZ Type – Solid Carbide Thread Mill

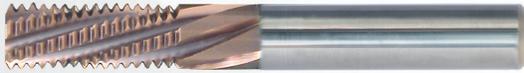

P M K S

- right hand cutting with left hand helix
- equipped with radial coolant holes
- Smooth cutting and reduced cutting forces during process

NEW

FT Type – Solid Carbide Thread Mill

P M K S

- right hand cutting with left hand helix
- offers more flutes for increased productivity
- lower tool vibrations and High Surface Finish

NEW

FMT Type – Solid Carbide Thread Mill

P M K S

- for increased productivity and extended tool life
- large number of flutes results in significantly shorter machining time
- fast Thread Mills with internal coolant bore

FMTI Type – Mini Mill-Thread

P M S

- increased productivity and high performance.
- with a large number of flutes that enables to achieve significant shorter machining time

FSH Type – Hardcut

P S

- High productive Solid Carbide Mill Threads with a large number of flutes for machining hard materials up to 65 HRC
